WHITEHALL, June 19.

THE following Paper is publiſhed by Order of the Truſtees named in an Act of Parliament, intituled 'An Act for 'providing a Reward to *Joanna Stephens*, upon a proper Diſ-'covery to be made by her, for the Uſe of the Publick, of the 'Medicines prepared by her for the Cure of the STONE.'

A full Diſcovery of the Medicines given by me JOANNA STEPHENS, *for the Cure of the* STONE *and* GRAVEL; *and a particular Account of my Method of preparing and giving the ſame.*

MY Medicines are a Powder, a Decoction, and Pills.

The Powder conſiſts of Egg-ſhells and Snails, both calcined.

The Decoction is made by boiling ſome Herbs (together with a Ball which conſiſts of Soap, Swines Creſſes burnt to a Blackneſs, and Honey) in Water.

The Pills conſiſt of Snails calcined, Wild Carrot Seeds, Burdock Seeds, Aſhen Keys, Hips, and Hawes, all burnt to a Blackneſs, Soap and Honey.

The Powder *is thus prepared:*

Take Hens Egg-ſhells well drained from the Whites, dry and clean, cruſh them ſmall with the Hands, and fill a Crucible of the Twelfth Size (which contains nearly three Pints) with them lightly; place it in the Fire, and cover it with a Tile; then heap Coals over it, that it may be in the midſt of a very ſtrong clear Fire, till the Egg-ſhells be calcined to a greyiſh White, and acquire an acrid ſalt Taſte: This will take up Eight Hours at leaſt. After they are thus calcined, put them into a dry clean earthen Pan, which muſt not be above three Parts full, that there may be Room for the ſwelling of the Egg-ſhells in ſlacking. Let the Pan ſtand uncovered in a dry Room for two Months, and no longer. In this Time the Egg-ſhells will become of a milder Taſte, and that Part which is ſufficiently calcined, will fall into a Powder of ſuch a Fineneſs as to paſs through a common Hair-ſieve; which is to be done accordingly.

In like Manner, Take Garden Snails with their Shells, cleanſed from the Dirt, fill a Crucible of the ſame Size with them whole, cover it, and place it in a Fire, as before, till the Snails have done ſmoaking, which will be in about an Hour, taking Care that they do not continue in the Fire after that. They are then to be taken out of the Crucible, and immediately rubbed in a Mortar to a fine Powder, which ought to be of a very dark grey Colour.

Note, *If* Pit Coals *be made uſe of, it will be proper, in order that the Fire may the ſooner burn clear on the Top, that large Cynders, and not freſh Coals, be placed upon the Tiles which cover the Crucibles.*

Theſe Powders being thus prepared, take the Egg-ſhell Powder of ſix Crucibles, and the Snail Powder of One, mix them together, rub them in a Mortar, and paſs them through a Cypreſs-ſieve. This Mixture is immediately to be put up into Bottles, which muſt be cloſe ſtopped, and kept in a dry Place for Uſe. I have generally added a ſmall Quantity of Swines-Creſſes burnt to a Blackneſs, and rubbed fine; but this was only with a View to diſguiſe it.

The Egg-ſhells may be prepared at any Time of the Year, but it is beſt to do them in Summer. The Snails ought only to be prepared in *May*, *June*, *July* and *Auguſt*; and I eſteem thoſe beſt which are done in the firſt of theſe Months.

The Decoction *is thus prepared:*

Take four Ounces and an half of the beſt *Alicant* Soap, beat it in a Mortar with a large Spoonful of Swines-Creſſes burnt to a Blackneſs, and as much Honey as will make the Whole of the Conſiſtence of Paſte. Let this be formed into a Ball.

Take this Ball, and green Chamomile or Chamomile Flowers, ſweet Fennel, Parſley and Burdock Leaves, of each one Ounce. When there are not Greens, take the ſame Quantity of Roots; cut the Herbs or Roots, ſlice the Ball, and boil them in two Quarts of ſoft Water half an Hour, then ſtrain it off, and ſweeten it with Honey.

The Pills *are thus prepared:*

Take equal Quantities by Meaſure, of Snails calcined as before, of Wild Carrot Seeds, Burdock Seeds, Aſhen Keys, Hips and Hawes, all burnt to a Blackneſs, or, which is the ſame Thing, till they have done ſmoaking; mix them together, rub them in a Mortar, and paſs them through a Cypreſs-ſieve. Then take a large Spoonful of this Mixture, and four Ounces of the beſt *Alicant* Soap, and beat them in a Mortar with as much Honey as will make the Whole of a proper Conſiſtence for Pills. Sixty of which are to be made out of every Ounce of the Compoſition.

The Method of giving theſe Medicines, is as follows:

When there is a Stone in the Bladder or Kidneys, the Powder is to be taken three Times a Day, *viz.* In the Morning after Breakfaſt, in the Afternoon about 5 or 6, and at going to Bed. The Doſe is a Dram *Adverdupoiz*, or 56 Grains, which is to be mixed in a large Tea Cup full of White Wine, Cyder, or Small Punch; and half a Pint of the Decoction is to be drank, either cold or milk-warm, after every Doſe.

Theſe Medicines do frequently cauſe much Pain at firſt; in which Caſe it is proper to give an Opiate, and repeat it as often as there is Occaſion.

If the Perſon be coſtive during the Uſe of them, let him take as much Lenitive Electuary, or other laxative Medicine, as may be ſufficient to remove that Complaint, but not more: For it muſt be a principal Care at all Times to prevent a Looſneſs, which would carry off the Medicines; and if this does happen, it will be proper to encreaſe the Quantity of the Powder, which is aſtringent, or leſſen that of the Decoction, which is laxative, or take ſome other ſuitable Means by the Advice of Phyſicians.

During the Uſe of theſe Medicines, the Perſon ought to abſtain from ſalt Meats, red Wines, and Milk, drink few Liquids, and uſe little Exerciſe, that ſo the Urine may be the more ſtrongly impregnated

impregnated with the Medicines, and the longer retained in the Bladder.

If the Stomach will not bear the Decoction, a ſixth Part of the Ball made into Pills muſt be taken after every Doſe of the Powder.

Where the Perſon is aged, of a weak Conſtitution, or much reduced by Loſs of Appetite, or Pain, the Powder muſt have a greater Proportion of the calcined Snails than according to the foregoing Direction; and this Proportion may be increaſed ſuitably to the Nature of the Caſe, till there be equal Parts of the two Ingredients. The Quantity alſo of both Powder and Decoction may be leſſened for the ſame Reaſons. But as ſoon as the Perſon can bear it, he ſhould take them in the above-mentioned Proportions and Quantities.

Inſtead of the Herbs and Roots before-mentioned, I have ſometimes uſed others, as Mallows, Marſhmallows, Yarrow red and white, Dandelion, Water-Creſſes, and Horſe Radiſh Root, but do not know of any material Difference.

This is my Manner of giving the Powder and Decoction. As to the Pills, their chief Uſe is in Fits of the Gravel, attended with Pain in the Back and Vomiting, and in Suppreſſions of Urine from a Stoppage in the Ureters. In theſe Caſes, the Perſon is to take five Pills every Hour Day and Night, when awake, till the Complaints be removed. They will alſo prevent the Formation of Gravel and Gravel-ſtones in Conſtitutions ſubject to breed them, if Ten or Fifteen be taken every Day.

June 16. 1739. J. STEPHENS.

DUBLIN, May 15.

ON Saturday laſt Mr. Smith, Keeper of Newgate, with ſome Conſtables, went to the City Marſhalſea to demand one Croſby, a Priſoner there, who was charg'd with a Rape committed on a young Woman at Donnebrook on May-Day laſt; but the Priſoners refuſing to let him be taken away, and abuſing the Conſtables, Mr. Smith apply'd to the Sheriff, who came in Perſon with a Party of the Main Guard, and demanded the Priſoner to be deliver'd up peaceably; but the Priſoners, inſtead of complying with his Requeſt, fell to pelting him and the Soldiers with Stones, Brick-Bats, and whatever elſe came in their Way; upon which the Soldiers were order'd to fire upon them with Powder only, in hopes to frighten them; but it only ſerv'd to enrage them the more, and accordingly redoubled their Attack and knock'd down one of the Soldiers and wounded another in the Head; upon which they charg'd with Ball and fired on the Rioters, by which one Kelly, a Brogue-Maker, was kill'd, another wounded in the Shoulder, and one Anne Johnſton had the Pan of her Knee ſhot off. Afterwards Croſby and ſeveral of the principal Rioters were taken and put into Newgate.

LONDON, June 7.

Letters from both Nanci and Liſle ſay, that the Conferences at thoſe Places take a very diſadvantageous Turn for the Intereſt of the Emperor in the Low Countries, France having conducted her Affairs in ſuch Sort as to be upon the Point of acquiring a conſiderable Territory in the Dutchy of Luxemburg, that is ſo ſituate as almoſt to ſurround the Fortreſs of Luxemburg itſelf, which will in a Manner be block'd up by it: An Affair ſo important cannot fail of giving great Uneaſineſs to the Courts of Vienna and Bruſſels. What appears unhappy in this, is, that France could not be refus'd in this her Demand, to ſuch an extravagant Pitch is her Power grown, and ſo ambitious is ſhe of enlarging her Territories. There is great Reaſon therefore to fear, that after having made this Acquiſition, ſhe will be tempted to carry her Pretenſions ſtill further. It's not unlikely but that the firſt Step will be to build Forts round about Luxemburg, under Pretext of defending her own Territories, but in reality, to keep that important Place in awe. In ſhort, France is now in ſuch a Situation, as enables her to undertake whatever ſhe pleaſes againſt almoſt any other Power.

BOSTON, Auguſt 21.

The Squirrel Man of War commanded by Peter Warren, Eſq; and the Tartar Pink by the Hon. George Townſhend, Eſq; ſet ſail together from Nantaſket, early on Lord's Day Morning, on a Cruiſe againſt the Spaniards.

We hear that a Scooner is arrived at Marblehead from Cadiz, which brings Advice, that before ſhe ſail'd, a Britiſh Man of War, came in there, and ordered all the Ships belonging to the Subjects of Great Britain then in the Bay, to depart forthwith.

Auguſt 27. By Capt. Stoddard from Newcaſtle, we are informed, that Eight Sail of Eaſt India Ships were arrived in the Downs.

By Capt. Tilden from Jamaica we are informed, that while he lay there, a Britiſh Man of War being upon her Cruize, met with a Brigantine, which the Man of War's Boat went on board of, and found there about a Dozen Spaniards and an Iriſh Man, who being one of the King's Subjects, the Captain of the Man of War took him on Board his Ship, and left the Brigantine; and that ſome Days after, the ſame Brigantine being ſeen near Port Royal Keys, the Man of War's Boat went and brought her in: She had Salt on board, but no Papers of any Sort could be found, and 'twas ſaid ſhe belong'd to Rhode-Iſland, and as no Engliſhmen were found on Board, it was ſuſpected they had been murdered by the Spaniards, who were to be tried as Pirates ſoon after Capt. Tilden came away. It is tho't the Iriſhman was the only Artiſt they had on Board, and that the Want of him was the Cauſe of their coming ſo near to Jamaica.

'Tis ſaid, that upon the firſt Advice of a War, all Buſineſs will be laid aſide in Jamaica, but that of Privateering, the Men waiting with Impatience to have their Hands untied.

His Excellency the Governor having been pleaſed to grant a Commiſſion or Letter of Repriſal to Capt. Philip Dumareſque of this Town, to command a Privateer to cruize upon the Spaniards, the Drums beat through the Town laſt Friday and Saturday for Volunteers, and 'tis not doubted but he will get a ſufficient Number of able Hands in a little Time, he being univerſally approved of for a Commander, and we hear moſt of his Officers have been Commanders of Veſſels. He has a fine Sloop of an Hundred Tons, which is to have Thirty Guns mounted, with other Arms, &c. anſwerable, and to carry 120 Men.

This Morning Capt. M'Neal ſail'd for the Weſt-Indies with a Letter of Marque.

PHI-

PHILADELPHIA.

We hear from Albany, that a large Body of French and Indians lately paſs'd by Oſwego Fort, in their March from Canada to the Southward on an Expedition againſt the Southern Nations.
